## **Children's Author Releases Compelling New Children's Book For The Holidays**

[www.ChristmasUnitStudy.com](http://www.ChristmasUnitStudy.com) *provides further information*

**ANDREWS, NC (OCTOBER 20, 2015)** Paradise Praises is pleased to announce the publication of *Christmas Around the World*, A 6-week geography-based unit study curriculum by author Katie Hornor.

*Christmas Around the World* allows children (and entire families) to explore the meaning of Christmas through the decorations, foods and traditions of peoples and cultures around the world. *Christmas Around the World* contains 30 fact and fun-filled lessons, with enough supporting material, resources, and activities to base your entire holiday semester on. It is adaptable for K-6th and offers reproducible license for single family use.

Trena Balakrishnan, a happy customer gave the book 5 stars and had this to say "What a fun way to "take a break" from your studies in December and focus on *Christmas Around The World* or use it with a world geography study and add a "day" to study the country's holiday traditions. The ideas in this book are flexible to fit whatever your family desires. Each country has one-page about the country and how the holiday is celebrated, and another page of additional resources followed by 4 reproducible activity pages for each child. Any way you use it, your family will enjoy this great product from Katie Hornor for use in your homeschool."

*Christmas Around the World* is now on sale at Amazon.com and [www.ChristmasUnitStudy.com](http://www.ChristmasUnitStudy.com)
